

Thursday, October 6th, 2022 Minutes for Trauma Coordinators, Acute Care, Neonatal & Maternal Committee

Selected as a group to have educational opportunity during next meeting over delivery or active labor in non-delivery or rural hospital and subsequent support of newborn by URHC maternal department who will also be talking about PPED or Pre-eclampsia Emergency Department signs and symptoms to watch out for.

As of January 1st the new rules for trauma should be placed on the website and our February meeting we will address those as a group.

Educational information from several areas such as the pediatrics department at URHC will no be doing in person PALS classes and are interested in putting train the trainer courses if we can get buy in to assist with the amount of trainers to teach some of our courses; there is a MOAB or Management of Aggressive behavior course which is a train the trainer course being offered and is highly advised for surrounding hospital to send people to train the hospital staff; Stop the Bleed campaign is still pushing out doing more classes and we should push out into our region to make sure our schools are being taken care of and the Acute care is doing MI drills they have completed one at Electra and have one planned for Clay county in the near future.
